Hello  
I am in support of anyone being able to transfer all legally owned firearms, whether or not these items are pre-ban or not. Any laws that are repugnant to the Constitution are Unlawful. The second amendment is so important, our founders only placed freedom to worship God above it.  
You should not enact ANY new legislation with regards to the second amendment.  
Connecticut has overstepped the Constitution with it's existing legislation.  
We are voters and Law Abiding citizens.  
We see what you do and we will remember in November.

Thank you  
Charles D Rund
